

SOLAR RIPP

Upgrade your pool temperature!

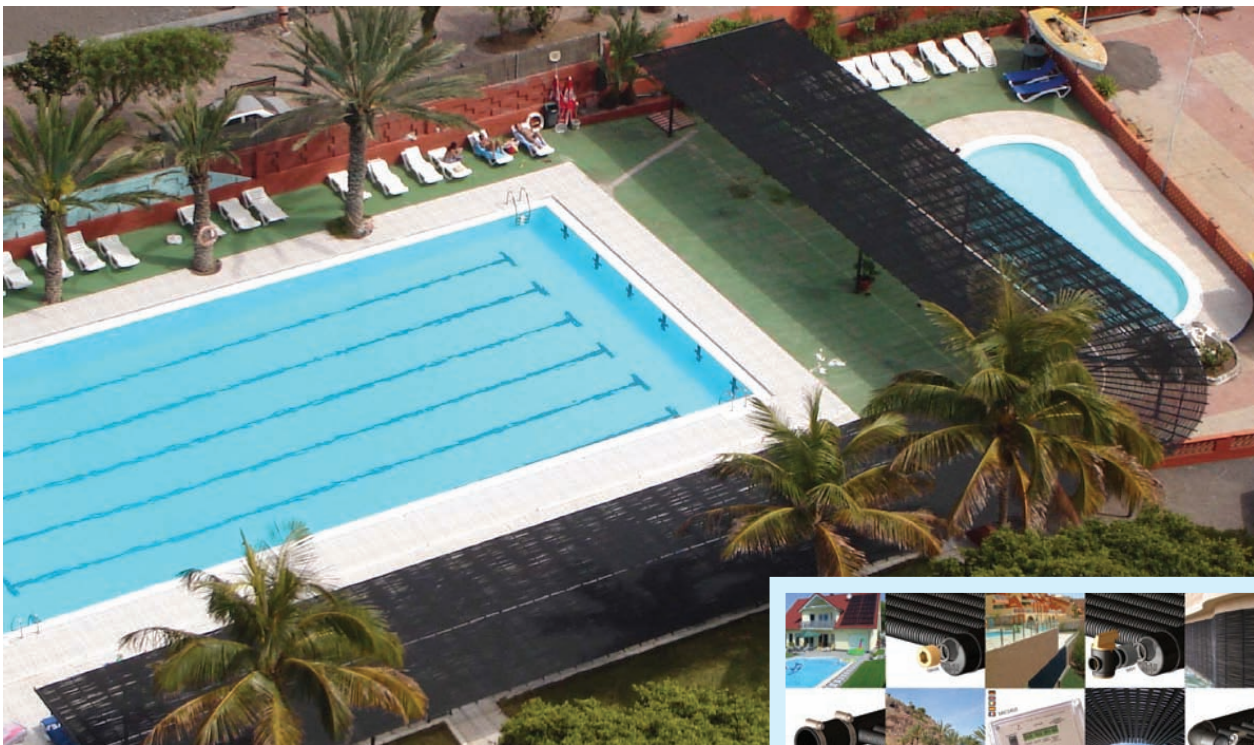

SOLAR RIPP Distributing Manifold Pipe - 50mm outside diameter, also available as 75mm, 90mm, 110mm and 125mm diameter for bigger systems used on public and hotel pools.

SOLAR RIPP Tube - advanced 25mm rip tube with optimized geometry and updated materials. 25mm outside diameter for minimum inner pressure loss and minimum auxiliary pump energy required. Made from special plastic that is resistant to UV, seawater and chlorinated water. Lengths of 25m, 50m, 100m, 125m, 150m, 175m, 200m and 300m are available.

SOLAR RIPP Rubber Gasket SRX
Plug in the two face ends of the Solar Ripp tubes

SOLAR RIPP Spacer and Clips - For rapid assembly with non-slip safety construction, the spacers provide optimal look of the solar system. Spacers are placed parallel every one metre for flat mounting, or every 50cm for use on flat roofs, fencing and walls. Made from an extremely UV-resistant special plastic material and including U-joints to fit them together.
